

CHRONICLE

Dr. A. Lwoga was appointed as from 1 July 1979 the Dean of the Faculty of Agriculture, Forestry and Veterinary Science, and on this occasion the Editorial Board of the Tanzanian Veterinary Bulletin extends to him the best wishes for a successful tenure in the office.

Between 1973-1979 the position of dean was held by Professor M. Kyomo.

In April the Veterinary School was visited by the following scientists:

Dr. J.P. Renton	- Glasgow	- Obstetrics and Reproduction
Dr. J.R. Holmes	- Bristol	- Medicine
Prof. H. Hüller	- Hannover	- Physiology
Prof. Schnieden	- Manchester	- Pharmacology
Prof. B. Cunningham	- Dublin	- Pathology
Prof. D. Lee	- Dublin	- Parasitology.

Professor C.L. Kombo returned in April from a tour of British and Irish Veterinary Schools. (Fig.1). He visited the Veterinary Schools in the Universities of Bristol, Edinburgh, Glasgow and the Royal Veterinary College London. He has informed us that in Edinburgh he had the pleasure of being invited to the Burns Dinner organized by the Edinburgh Branch of the British Veterinary Association. It was a traditional event. He enjoyed the "piping in" of haggis but does not pretend to have under-stood the speeches.

The long expected funds for the development of the Veterinary School have been approved by the Danish Parliament and Danish Government.

The first Orientation Programme for the expatriate staff has been conducted by I.D.S., on 29-31st May 1979.

Inaugural lectures in the period April-July 1979.

7. Mycotoxins in animal and human aspects - Professor E.L. Strzelecki
8. Insects and man - Professor H.Y. Kayumbo
9. The pattern of Future Tanzanian Development - Professor R.J. Morris.
